Hahn brand is gaining good traction. I can see why. They are great value wines. You all know I am not a big fan of Chardonnay, but I rather enjoyed their Hahn Estates 2005 Chard, a steal at only \$12. We decided to purchase a bottle to enjoy with our picnic lunch on their large, sunny deck.

Take Me to Oenology

Monterey, California

During a recent get-together, I had just moved to a new location. The friendly folks there were the closest thing to a California wine tasting I had ever experienced. Alas, as I sat there, a sort of idyllic feeling washed over me. We began at Hahn Estate. It was the more upscale of the two, and I was making very few choices. Hahn brand is gaining good traction. I can see why. They are great value wines. You all know I am not a big fan of Chardonnay, but I rather enjoyed their Hahn Estates 2005 Chard, a steal at only \$12. We decided to purchase a bottle to enjoy with our picnic lunch on their large, sunny deck.
